## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's Representative on 7/3/2006..

The application has been amended as follows:

**CANCEL CLAIMS: 11-15 and 21-25**

### ***Allowable Subject Matter***

**Claims 16-20 are allowed.**

The following is an examiner's statement of reasons for allowance: Murphy et al. teaches the method of forming conductive polymer passive devices on a substrate, in

which it would be obvious to one of ordinary skill in the art from the devices on a preformed wiring / IC substrate. From the prior art it would not however be obvious to one of ordinary skill in the art to form the passive devices on a silicon wafer substrate as defined in paragraph 25 of the Applicant's specification and then transfer the individual passive devices to the IC as claimed in claim 16. Claims 17-20 are dependent upon claim 16 therefore they are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
